PROFESSIONAL SUMMARY

Java Full-Stack Developer with hands-on experience developing full-stack web applications using Java, Spring Boot, React.js, and SQL. Experienced in building REST APIs, implementing JWT-based authentication, developing CRUD operations, and working with database-driven applications through academic projects and internships. Strong foundation in problem-solving and Data Structures & Algorithms, with a keen interest in learning and applying modern technologies.

EDUCATION

B.Tech in Information Technology — Meenakshi Sundararajan College of Engineering

2023 – 2027 | Current CGPA: 8.98

Montfort Academy Matriculation Higher Secondary School

Completed HSC (Class XII) — 2022 | Scored 90%

Completed SSLC (Class X) — 2020 | Scored 79.2%

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), HTML5, CSS

Libraries: React.js

Frameworks: Spring Boot, Angular

Databases: MySQL

Tools & IDEs: Eclipse, IntelliJ IDEA, Postman, Visual Studio Code, Git, GitHub

Soft Skills: Teamwork & Collaboration, Time Management

EXPERIENCE

Front End Developer Intern | Zetheta Algorithms Private Limited, Remote

July 2026

Developed a responsive multi-step loan application form using React and modern frontend technologies, focusing on form validation, conditional fields, document upload, auto-save, and user-friendly UI design.

Full Stack Developer Intern | 8Queens, Mandaveli

June 2025

Designed and built a responsive e-commerce website using HTML, CSS, and JavaScript, focusing on user-friendly interface design and responsive layouts.

PROJECTS

EHub – Event Management System — React.js, Spring Boot, MySQL, JWT

<https://github.com/madhumitharg2424/event-management-system>

- Built a full-stack Event Management System with **CRUD** operations for events and registrations, supporting 3 user roles, secure JWT authentication, and 20+ REST APIs using React.js, Spring Boot, and MySQL.
- Developed features including event creation, registrations, search, pagination, and dashboard analytics, and deployed the application on Vercel, Render, and Aiven Cloud MySQL.

InterviewAI – AI Mock Interview Platform — React.js, Spring Boot, MySQL, JWT

<https://github.com/madhumitharg2424/ai-interview-platform>

- Created a full-stack AI-powered mock interview platform with **CRUD**-based question and session management, featuring 5 interview categories, secure JWT authentication, and role-based access control.
- Integrated the Groq API for AI-powered answer evaluation and implemented text-to-speech and speech-to-text features for interactive mock interviews.

RealMindQUIZ - Engineering Placement Quiz Website — React.js, Firebase

https://github.com/madhumitharg2424/quiz_Web

- Developed a responsive quiz platform with **CRUD**-managed question sets, login/signup, quizzes across 3 difficulty levels, and streak tracking.
- Integrated Firebase Authentication with Google Sign-In and Cloud Firestore to manage user authentication and store user data.

CERTIFICATIONS, ACCOMPLISHMENTS & LANGUAGES

- **Certified** in Java –Infosys Springboard | Java– Solo Learn | Introduction to JavaScript – Solo Learn | SQL – Hacker Rank
- Led a team in poster design and social media management for a college symposium event, handling promotions in a professional and organized manner.
- Received a **Special Mention** at the 8-Hour Hackathon at Meenakshi Sundararajan College of Engineering; participated in a 24-Hour Hackathon at SVC College and two Internal College 30-hour Hackathons.
- Solved **200+** problems across [LeetCode](#), [GeeksforGeeks](#), and [HackerRank](#), strengthening problem-solving and Data Structures & Algorithms skills.
- **Languages:** Tamil and English.
